

IRRADIATION COMMENT FORM

attention FDA: keep irradiation labeling!

Re: Docket # 98N 1038,
"Irradiation in the
Production, Processing,
and Handling of Food"

3059 '99 JUL 20

believe the FDA should keep its requirements to prominently label irradiated packaged foods and non-packaged foods by always displaying the radura logo along with the words "treated with irradiation." I feel alternative terms such as "cold pasteurization" are misleading and should never be used.

also - I believe foods containing any irradiated portion of ingredient should have to display a message
